## Course Descriptions

---

***Rising Stars*** - This class will focus on teaching students the fundamentals including grips, preparation, and effective contact. These students are just learning the game.

***Qualifiers*** - These students have just learned to play matches from the baseline. Strokes may still be a bit inconsistent and further refinement of technique may be needed.

***Challengers*** - These players are getting better with stroke production, consistency, and depth. Strokes should be better refined. Students in this class will start working on match strategy and the proper construction of points.
